Education

Singapore Institute of Technology

Bachelor of Science with Honours in Computing Science

Singapore

Aug 2022 - Oct 2025

Ngee Ann Polytechnic

Diploma in Immersive Media and Game Design

Singapore

Apr 2019 - May 2022

Work Experience

Digital Workplace Intern, Sea Limited, Singapore

Sep 2024 - Apr 2025

- Collaborated with team members from Singapore and China to develop internal digital tools.
- Built and deployed a World Clock mini-tool using Vue.js to enhance time zone coordination across regional teams.
- Assisted in documenting, developing, and maintaining internal Vue.js applications, including an Announcement feature to enhance existing workflows and improve efficiency.

Immersive Media Intern, AIDC Technology(s) Pte Ltd, Singapore

Sep 2021 - Feb 2022

- Built and enhanced WordPress websites using Avada Builder, improving user experience and functionality.
- Designed graphic assets and produced digital content such as articles, posters, and videos for marketing.
- Implemented SEO strategies that increased website traffic and improved backlink rankings by 20%.

Projects

Internal Knowledge Chatbot | Vue.js, Tailwind CSS, Flask, Selenium, ChromaDB, Docker

Sep 2024 - Apr 2025

Capstone Project, Singapore Institute of Technology

- Built an AI-powered RAG browser assistant as a Chrome Extension to help users easily retrieve information from content-heavy and complex websites.
- Used Selenium for automated data crawling and scraping across multiple web pages.
- Leveraged ChromaDB, SentenceTransformers, and Levenshtein distance for efficient content retrieval.
- Integrated Gemini API to access and enhance responses with external knowledge.

TravelExp | React, Spring Boot, gRPC, MongoDB, MySQL, Docker, Kubernetes

- Developed a cloud-based travel planner web application using React and Spring Boot.
- Implemented gRPC for efficient microservice communication and Docker/Kubernetes for containerization and deployment.
- Integrated Spring Boot Scheduler with Server-Sent Events (SSE) to enable real-time notifications.

Recordify | Flutter, Node.js, GCP, Supabase, FastAPI, Docker

Sep 2023 - Apr 2024

Professional Software Development and Team Project, Singapore Institute of Technology

- Collaborated in a team of six to deliver a mobile application following Agile development principles.
- Worked closely with industry partners to gather and translate requirements into technical solutions.
- Developed a Flutter application featuring concurrent multi-speaker text-to-speech functionality, designed to support hundreds of users simultaneously.

Technical Skills

Languages: CSS, HTML, Java, JavaScript, Kotlin, NoSQL, PHP, Python, SQL, Swift

Frameworks & Libraries: Flask, Flutter, gRPC, Node.js, React, Vue.js

Cloud & DevOps: AWS, Docker, GCP, Git/Github, Kubernetes

Databases: ChromaDB, Firebase, MariaDB, MongoDB, MySQL, Supabase

Awards and Certifications

WWDC24 Swift Student Challenge Winner, Apple

2024

3rd Prize in GUTS Code Olympics, SIT and UofG Singapore

2023

Game Developer, Unity Certified Associate

2021
